August 2009

**The
Inside Loop**

Safety is our most important Product!

When driving during this hot weather you will notice quite a few drivers have a cell phone stuck in their ear, some think they are air conditioners for the brain.
Be safe when driving to your favorite field.

Next Meeting
Monday, August 17
7 PM - until?

Food:

“No host” dinner and drinks (that means we buy our own food and drinks, or split the tab). Great pizza, burgers, sandwiches and dinners.

Location:

Little Italy
1515 N. Adair
Cornelius, OR

Agenda:

Social hour.
Status of field search.

President's Soapbox

Directions:

From anywhere, take TV HWY west. Little Italy is about 0.25 miles after TV HWY splits at 20th Ave in Cornelius, on the left in the Grande Foods shopping center.

I hope that all of you have found some alternate places to fly this summer. We have to keep up that RC addiction! Sounds like the indoor fliers are going strong, and hopefully staying cool in the gym. It's been hot outdoors....but winds seem like they've been light and variable...if you've been fortunate enough to be able to get out! Don't forget

Hi Guys, I'm just cooling off on my favorite backyard fence. The Evergreen Qualifier is over, set some new heat wave records for Molalla Land. My peanut suppliers spent four days there, some place called the Stagecoach Inn or was it the Recession Inn, well anyway their back, lunch is served. Hey, Beaverton wants a Baseball Team to call their very own. Boy I'm sure glad I don't live in that City bad enough I'm so close. See ya all next month SQ Earl VI

your sun screen. If you haven't been flying, check out a few events... Scalemasters in Molalla is the first weekend in August...the annual OMAS air show the second weekend in August (bring a plane and fly) ... and check out the IMAC event at Dusters on the 22nd-23rd. If you're a WWI buff, the Dawn Patrol has moved from Molalla to the Roseburg area this year...that's on the weekend of August 15th. Busy month!

The search for a new field goes on. Last month I mentioned a lead on a site in Canby. The owner was very willing, but the land had been on the market for over 8 years, and it sold about a week after I made contact. Dave Fox got a lead from an acquaintance on a site in Scholls, on HWY 219 just a few miles from the Flint Farm. Once again, a willing owner, but this site is too small folks...we'd be flying into trees in one direction and probably routinely flying over a neighboring house...not good. The site was also mostly facing south. Last month I mentioned that we had finally been contacted by a farming family that owns multiple large acreages in various locations north of Cornelius and along Hwy 47 between Forest Grove and Banks. Discussions with that family have been going slowly, but they are still going on. I've also made contact with another farming family that owns property north of Cornelius and along HWY 47. They are considering whether or not to move forward with us. I hope to hear back from them within a week. There's still a substantial list of contacts that Dave Hicks has put together....they'll be contacted as time allows.

Next meeting will be Monday, August 17. Considering that we're looking at the potential of a field site north of Cornelius, I'd like to announce that we'll meet at Little Italy (great pizza!) in Cornelius. Drive on

out and check out the area. See the meeting announcement for details. The meeting agenda will be, well....social....we need to kick back and have some fun! I hope we can make some more announcements about progress on the field search.

Keep your engines running!

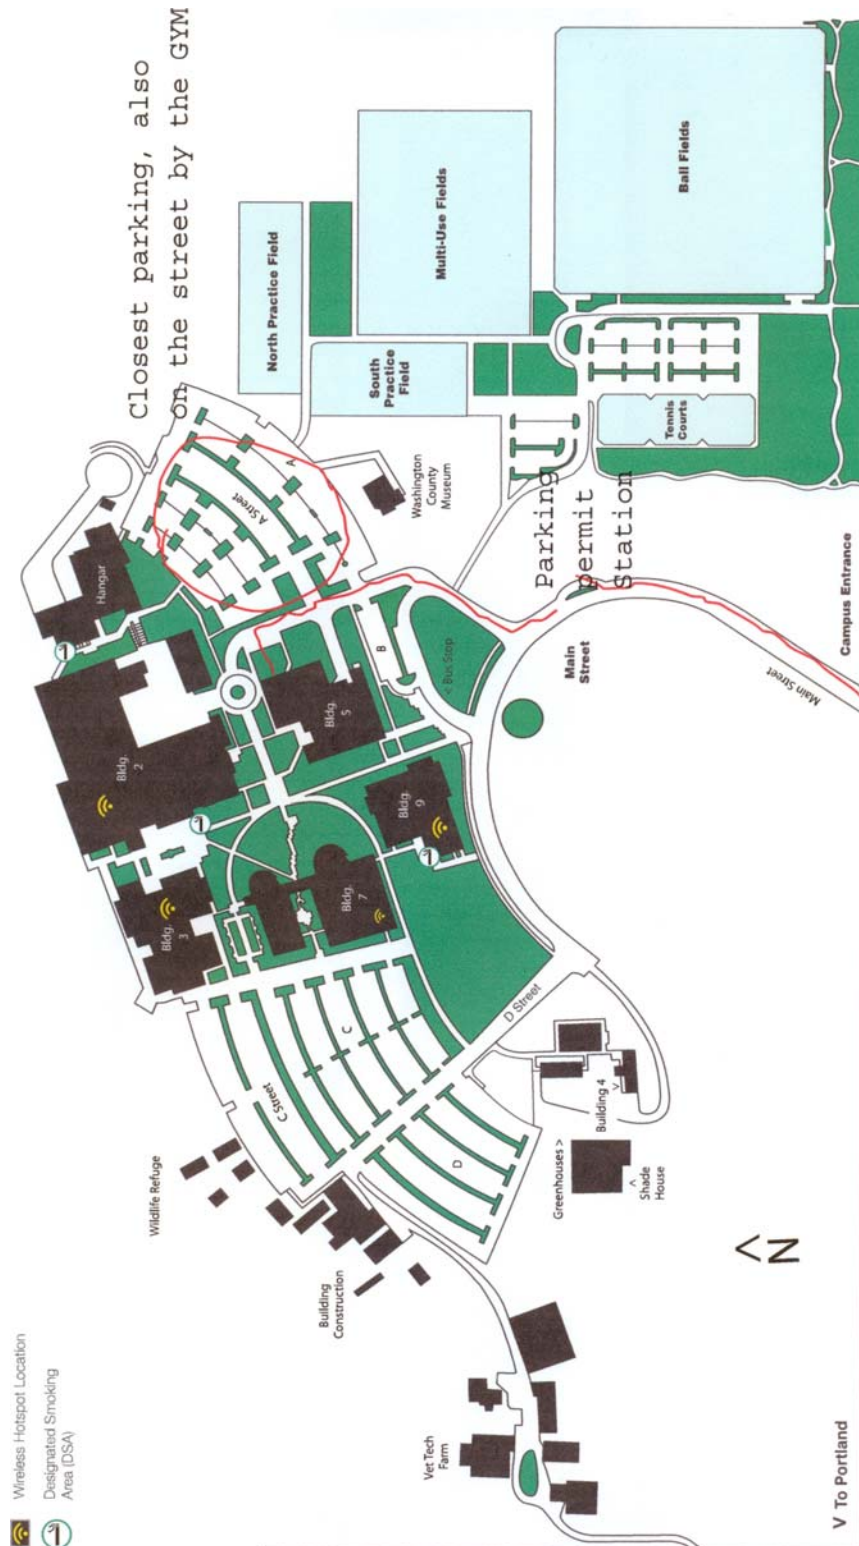

Scott E.

From Terry Criswell

History was made on Tuesday morning in Oshkosh when a Predator B Unmanned Aircraft System (UAS) landed for the first time ever at Wittman Regional Airport for participation in next week's AirVenture 2009.

Predator B Video

**Our next indoor flying event is coming up next week.
Tues Aug 10 & 24 from 6:00 to 8:30 PM @ Rock Creek Gym.
AMA required.**
